

Location:	Mansfield, PA
General Contractors:	Massaro Construction Company, Pittsburgh, PA
Maxxon Applicator:	Pecora Flooring Inc., Pittsburgh, PA
Scope:	90,000 sq. ft. of Acousti-Mat® II in dorm rooms 126,000 sq. ft. of Gyp-Crete 2000®/3.2K poured at a depth of 1" over concrete on the 1st floor and over wood and Acousti-Mat® II on the 2nd through 4th floor.

Mansfield University recently added two residence halls to accommodate their growing student population. To ensure that the rooms were quiet, they turned to Pecora Flooring Inc., who installed Acousti-Mat II in the dorm rooms. All floors were then topped with Gyp-Crete 2000/3.2K to add fire resistance and to provide a smooth surface ready to receive finished floor goods.
