Hamel, Minnesota – Maxxon Corporation is proud to announce participation in the new GREENGUARD Select Certification ProgramSM from the GREENGUARD Environmental Institute.

This elite pilot program uses the stringent emission criteria of the GREENGUARD Children & Schools Certification ProgramSM with additions to meet the latest scientific and market requirements. Products are tested and certified for four different environments: Commercial, Education, Healthcare, and Home.

All of Maxxon's underlayments and sound control mats which are currently GREENGUARD Children & Schools CertifiedSM meet the highly specialized GREENGUARD Select criteria for ALL four of these environments.

Numerous products claim to be eco-friendly, but Maxxon Corporation backs up these claims with 3rd-party verification from the GREENGUARD Environmental Institute. Maxxon's Acousti-Mat systems are the ultimate in green-friendly sound control solutions, and covered with a GREENGUARD-Certified Maxxon Underlayment, may also help contribute toward points for LEED® project certification.

Maxxon® Corporation is the leading provider of floor underlayments and floor/ceiling sound deadening systems. Maxxon products are used in new construction and renovation projects of commercial, retail, and industrial facilities as well as single family and multifamily housing. They are available through authorized dealers located throughout North America.
